

## Electronic Devices Protocol

1. If possible, do not bring electronic devices to school.
2. All 2-way electronic devices must be turned off from 7:25 a.m. to 2:25 p.m.
3. Two-way devices should not be in clear view during school hours.
4. Failure to comply with regulations will result in consequences.
5. After an initial warning, the name of the student is catalogued in the house office and the phone is returned to the student. Incremental administrative consequences include the issuing of the aforementioned warning, an after-school detention, a Saturday morning detention, and an out of school suspension.
6. iPod musical devices are allowed in common areas, study halls, and in selected classroom environments (with teacher approval) as long as their use is not disruptive.
7. No texting communication is allowed throughout the school day.
8. Since many devices now are multi-functional, (being both 2 way communicators as well as being multi-dimensional), it is crucial that students realize that they should not use any items which may be thought to be prohibited during the school day.
9. Students should encourage their friends and acquaintances (outside the school community) to adhere to our in-house rules and regulations.
10. Without common adherence to these stipulations, THS will have to move to a zero-tolerance procedure regarding electronic items.
