- I approve this application and agree to encourage punctuality and regular attendance.
- I understand that the Agriscience program requires a Supervised Agricultural Experience and membership in the FFA (*see below*).
- I understand that due to the vocational nature of the program, field trips are taken and agricultural work is done, and it is important that all students take part in these experiences.
- I request the release of my child's complete records to the Trumbull Agriscience and Biotechnology Center. Such records include, but are not limited to, course grades, standardized test scores, IEP and/or PPT records, attendance records, school health records and any other appropriate information.

WORK EXPERIENCE
(SUPERVISED AGRICULTURAL EXPERIENCE)

Work experience is a required part of the total program of agriscience and biotechnology. Students in the 10th, 11th and 12th grade levels are expected to secure some form of meaningful work experience that will help them develop the skills and knowledge that are taught in the academic agricultural class.

THE FFA ORGANIZATION

All students enrolled in the Agriscience program must become a member of the FFA. This is a national organization of students studying agriscience and technology, which also has state, district and local levels of organization. The main goals of the FFA are to assist in the development of leadership, citizenship, communication and cooperation within its members. The organization is co-curricular and is integrated into the overall agriscience and biotechnology curriculum. Meetings are after school on a monthly basis. Numerous activities are organized by and for FFA members.
