NON - SCHOOL SPONSORED PUBLICATIONS

Policy Statement

Non-school sponsored newspapers and other publications including an “underground press”, are subject to the same responsibilities as those for other student publications as set for in the Student Publications policy.

Students involved in non-school sponsored publications are prohibited from representing themselves as agents of a sanctioned school activity in order to solicit funds, materials, or any other type of support from the community.

The distribution of such publications is restricted to before and after school hours, and the distribution must be done at points designated by the school administrator. The school administrator may require that the distribution take place off school grounds.
