Date: July 17, 2017  
To: All Staff/Faculty/Parents and Guardians of Students  
From : Mark Deming, Facilities Director  
For Asbestos – Trumbull Board of Education  
Subject: ACTIVITY PLAN – 763.93

The Trumbull school system continues to improve and upgrade the facilities each year. As renovations of our schools continue, the AHERA Management Plan continues to be revised and updated. Copies of all asbestos projects, as well as our 6-month periodic updates, 3-year re-inspection plans and all response actions, are kept on file for public review in the Facilities Department as well as in each school's main office.

Any questions or concerns related to asbestos or any other facilities concerns should be directed to me through the Facilities Department at (203) 452-4306.

Thank you.
